

# »Terrafame's effects on Kainuu's and Finland's economy

The effects of Terrafame's operations illustrated in the infographic are based on Ramboll Finland Oy's report in November 2016. The report assessed the annual effects of Terrafame's operations in 2019–2023 with the premise that the company is operating at full capacity, in accordance with its strategy. The effects were then compared to a scenario where Terrafame's mine and metals recovery plant did not exist. Ramboll Finland Oy's report is available in Finnish at [www.terrafame.fi](http://www.terrafame.fi).
